

WORKSHOP ON TOPOLOGICAL NANOPHOTONICS

Organizers: Sergey I. Bozhevolnyi & N. Asger Mortensen

May 28-29, 2018

University of Southern Denmark, Odense, Denmark

Topics:

- Topological photonics
- PT-symmetry
- Non-reciprocity
- Exceptional points
- 2D materials

Excursion:

Tuesday afternoon from kl. 15 – 21. Boat ride and 3-course dinner at Valdemars Slot.

Invited speakers (confirmed):

Mordechai Segev (Technion)
Vladimir Shalaev (Purdue Univ.)
Demetrios Christodoulides (Univ. Central Florida)
Mercedeh Khajavikhan (Univ. Central Florida)
Hrvoje Buljan (Univ. Zagreb)
Nimrod Moiseyev (Technion)
Alexander Szameit (Univ. Rostock)
Mark Brongersma (Stanford Univ.)

Potential participants should register [online](#) before March 31. Since the total number of participants is limited (~ 45), the registration will be closed once the limit is reached. The registered participants are encouraged to submit their contributions (single A4 page abstract) by e-mail to the following address: jhh@mci.sdu.dk. A limited number of contributed talks will be selected, while all interested can present their results as posters.
